OUR FRAMEWORK HELPS PEOPLE & ORGANISATIONS TO ACHIEVE VISIBLE RESULTS

1. SUPPORT TO SUSTAIN THE DESIRED TRANSFORMATION. The best of programmes often fail to achieve sustainable results since the push and pull of daily life overwhelms participants. We help to sustain the transformation by providing long-term, continual support and reinforcement through:

- a. Pre-work and reflection before the workshop that help people plan their learning.
- b. Reflection Reminders sent to every participant 4-6 weeks after the workshop.
- c. Learning Journey Buddy arrangements
- d. Letters to self
- e. Follow-up one-to-one coaching, if required.

These inspire people to stay focused on achieving personal and organisational goals.

2. EMPOWER INDIVIDUALS TO EMBRACE LEARNING. Our solutions are based on the belief that all human beings are born creative, intuitive and intelligent. We help people to realise that true mastery lies in exploring viewpoints beyond their own, and the continual application of learning.

3. ALIGNMENT OF PERSONAL AND ORGANISATIONAL GOALS. People become invested in the success of a program when they understand it is about their personal and professional success.

4. SHOWCASING VALUE. People take action only when they fully appreciate the value of doing so. Our programs highlight and demonstrate the practical benefits of the topic.

5. THEORIES INTO ACTION. Powerful theories are only valuable when people are able to convert them into simple, repetitive & visible actions that help them achieve desired results.

6. HIGH APPLICATION TO THEORY RATIO. Experiential programs with a 30-70 knowledge-application ratio and a blend of training and coaching ensures participants gain:

- a. **CLARITY** – In understanding and applying the key concepts
- b. **CONFIDENCE** – In implementing these concepts and ideas
- c. **COMMITMENT TO ACT** – Leaving with a clear, personally chosen action plan

This ensures participants leave every workshop with a simple and well-defined action plan, which they can use naturally and effortlessly.

POWERING REAL TEAMS TO REAL PERFORMANCE

OUR ACTION-BASED LEARNING METHODOLOGY

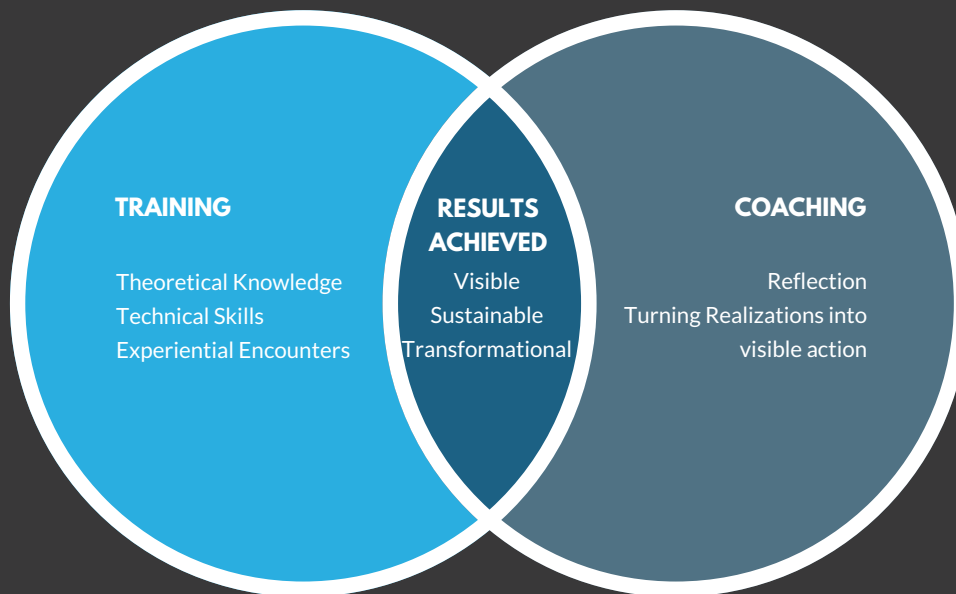

The foundation of all our programmes is a unique Action-based Learning Methodology designed to produce lasting, personal, relevant, and actionable realisations.

The Action-based Learning Methodology has four distinct modes of knowledge production: theoretical knowledge, technical skills, experiential encounters, and reflection and realisation.

The use of these multiple methods to engage and challenge participants generates the buy-in, commitment, and connection needed to ensure sustainable transformation, and thus, the increase in profitability and productivity.

BLENDED APPROACH OF TRAINING & COACHING

Our unique action-based methodology enables participants, not just to expand their horizons by seeing other concepts, but also to identify Simple-Repetitive-Visible actions, which they can use to implement the concepts, at work and in their personal lives.
