DIGITAL LEARNING SOLUTIONS

Are you seeking agile learning solutions for home-based teams or staff members affected by the coronavirus epidemic?

Do you want high impact, cost-effective learning for your regional / international teams?

Benefit from our LIVE experiential webinars and online coaching solutions, designed to **educate, entertain** and **empower!**

LIVE WEBINARS

Enjoy an energising and engaging experience with our interactive webinars, designed to offer a personalised experience. This is not a pre-recorded online course, or a one-way lecture. This is a **“live” fully interactive experience**, led by our expert facilitators, with discussions, exercises, team discussions, group chat and Q&A.

We leverage on our dedicated platforms with breakout rooms for our signature programmes on Influence, Transformation and Leadership. Each webinar is customised to your organisations' learning needs.

Join in the webinar from wherever you are in the world.

WHAT DOES THE WEBINAR INCLUDE

- Downloadable Learner Handout and Resources
- Facilitation of training sessions and breakout rooms
- Collaboration tools within the breakout rooms (full audio, video, screen share capabilities)
- Surveys
- Pre-and Post Tracking of increase in level of understanding and confidence in specific skill sets
- Learner Feedback Compilation
- Reflection Reminders

ATTRACTIVE BENEFITS AND COST SAVINGS

WITH OUR EXPERIENTIAL WEBINARS, YOU BENEFIT FROM:

- **Effectively addressing training needs** with work-from-home and travel restrictions.
- Leveraging on any current downtime to upskill staff and boost their morale, engagement and performance.
- **Learning in the comfort** of your home or office, anywhere in the world.
- **Regional/International training opportunities for your staff**, as they can learn together from anywhere in the world.
- Addressing the needs of learners in different time zones and cities without related travel costs.
- **Ease of use** with one click access with no need to install any apps. We can also utilise your organisation's conference platform (e.g. Webex).
- The same **high level of engagement** as a face-to-face-workshop with an **additional co-facilitator** who will create a **personalised experience** in the plenary session and breakout rooms.
- Peace of mind as our **dedicated webinar moderator** takes care of all the technical and administrative support to ensure a seamless user experience.

ATTRACTIVE COST SAVINGS

- Eliminating event room rental or food & beverage costs.
- We take care of the virtual event space completely, with breakout rooms for peer or group discussions.
- Full technical and administrative support for the webinar platform, at no additional cost.

OUR ACTION-BASED LEARNING METHODOLOGY

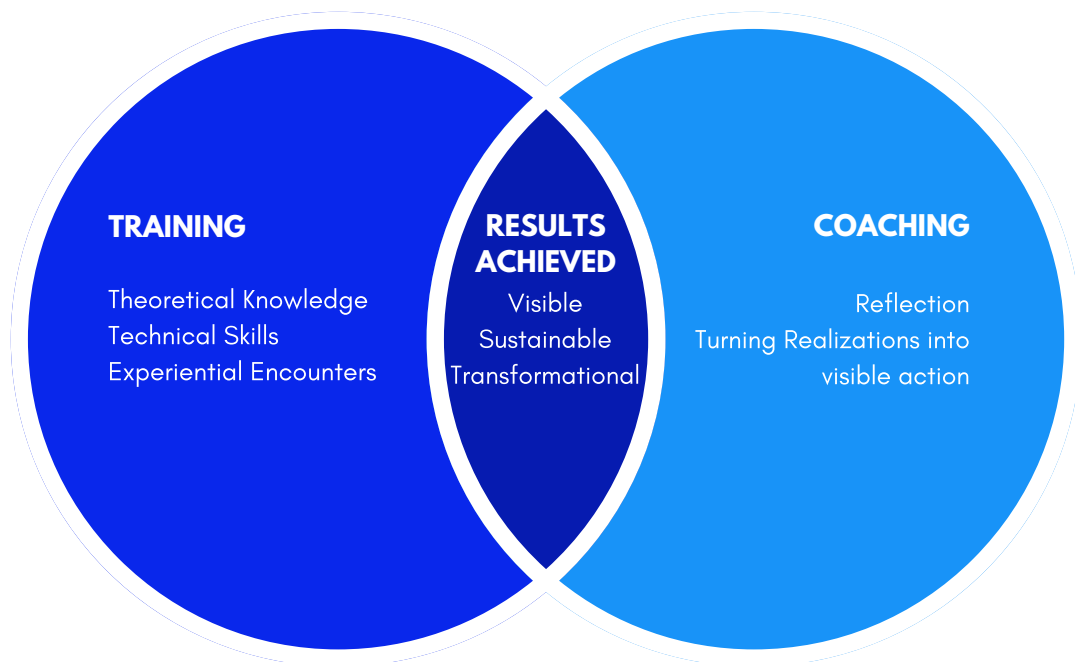

The foundation of all our programmes is a unique Action-based Learning Methodology designed to produce lasting, personal, relevant, and actionable realisations.

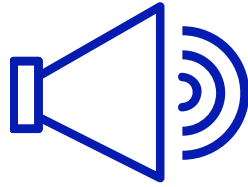

The Action-based Learning Methodology has four distinct modes of knowledge production: theoretical knowledge, technical skills, experiential encounters, and reflection and realisation.

The use of these multiple methods to engage and challenge participants generates the buy-in, commitment, and connection needed to ensure sustainable transformation, and thus, the increase in profitability and productivity.

A BLEND OF TRAINING & COACHING

Our unique action-based methodology enables participants, not just to expand their horizons by seeing other concepts, but also to identify Simple-Repetitive-Visible actions, which they can use to implement the concepts, at work and in their personal lives.
